

# My town - Giżycko

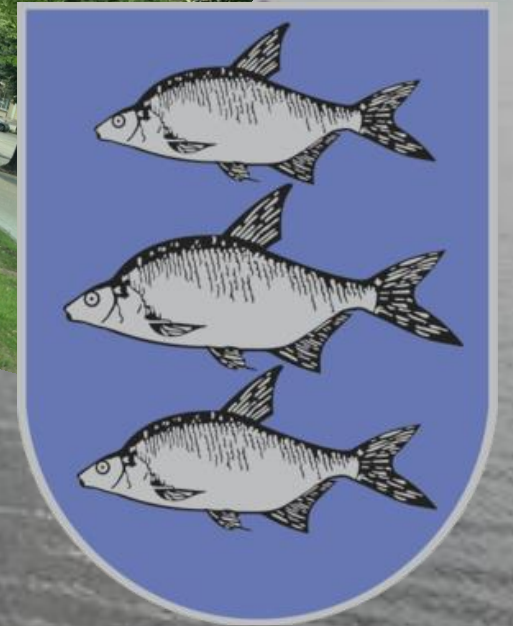

*giżycko-latzen.pl*

My town Giżycko is located in the northeast Poland between two big lakes, Niegocin and Kisajno.

About thirty thousand people live here. There are a lot of trees. In the crest of Giżycko we can see three breams on the blue background.

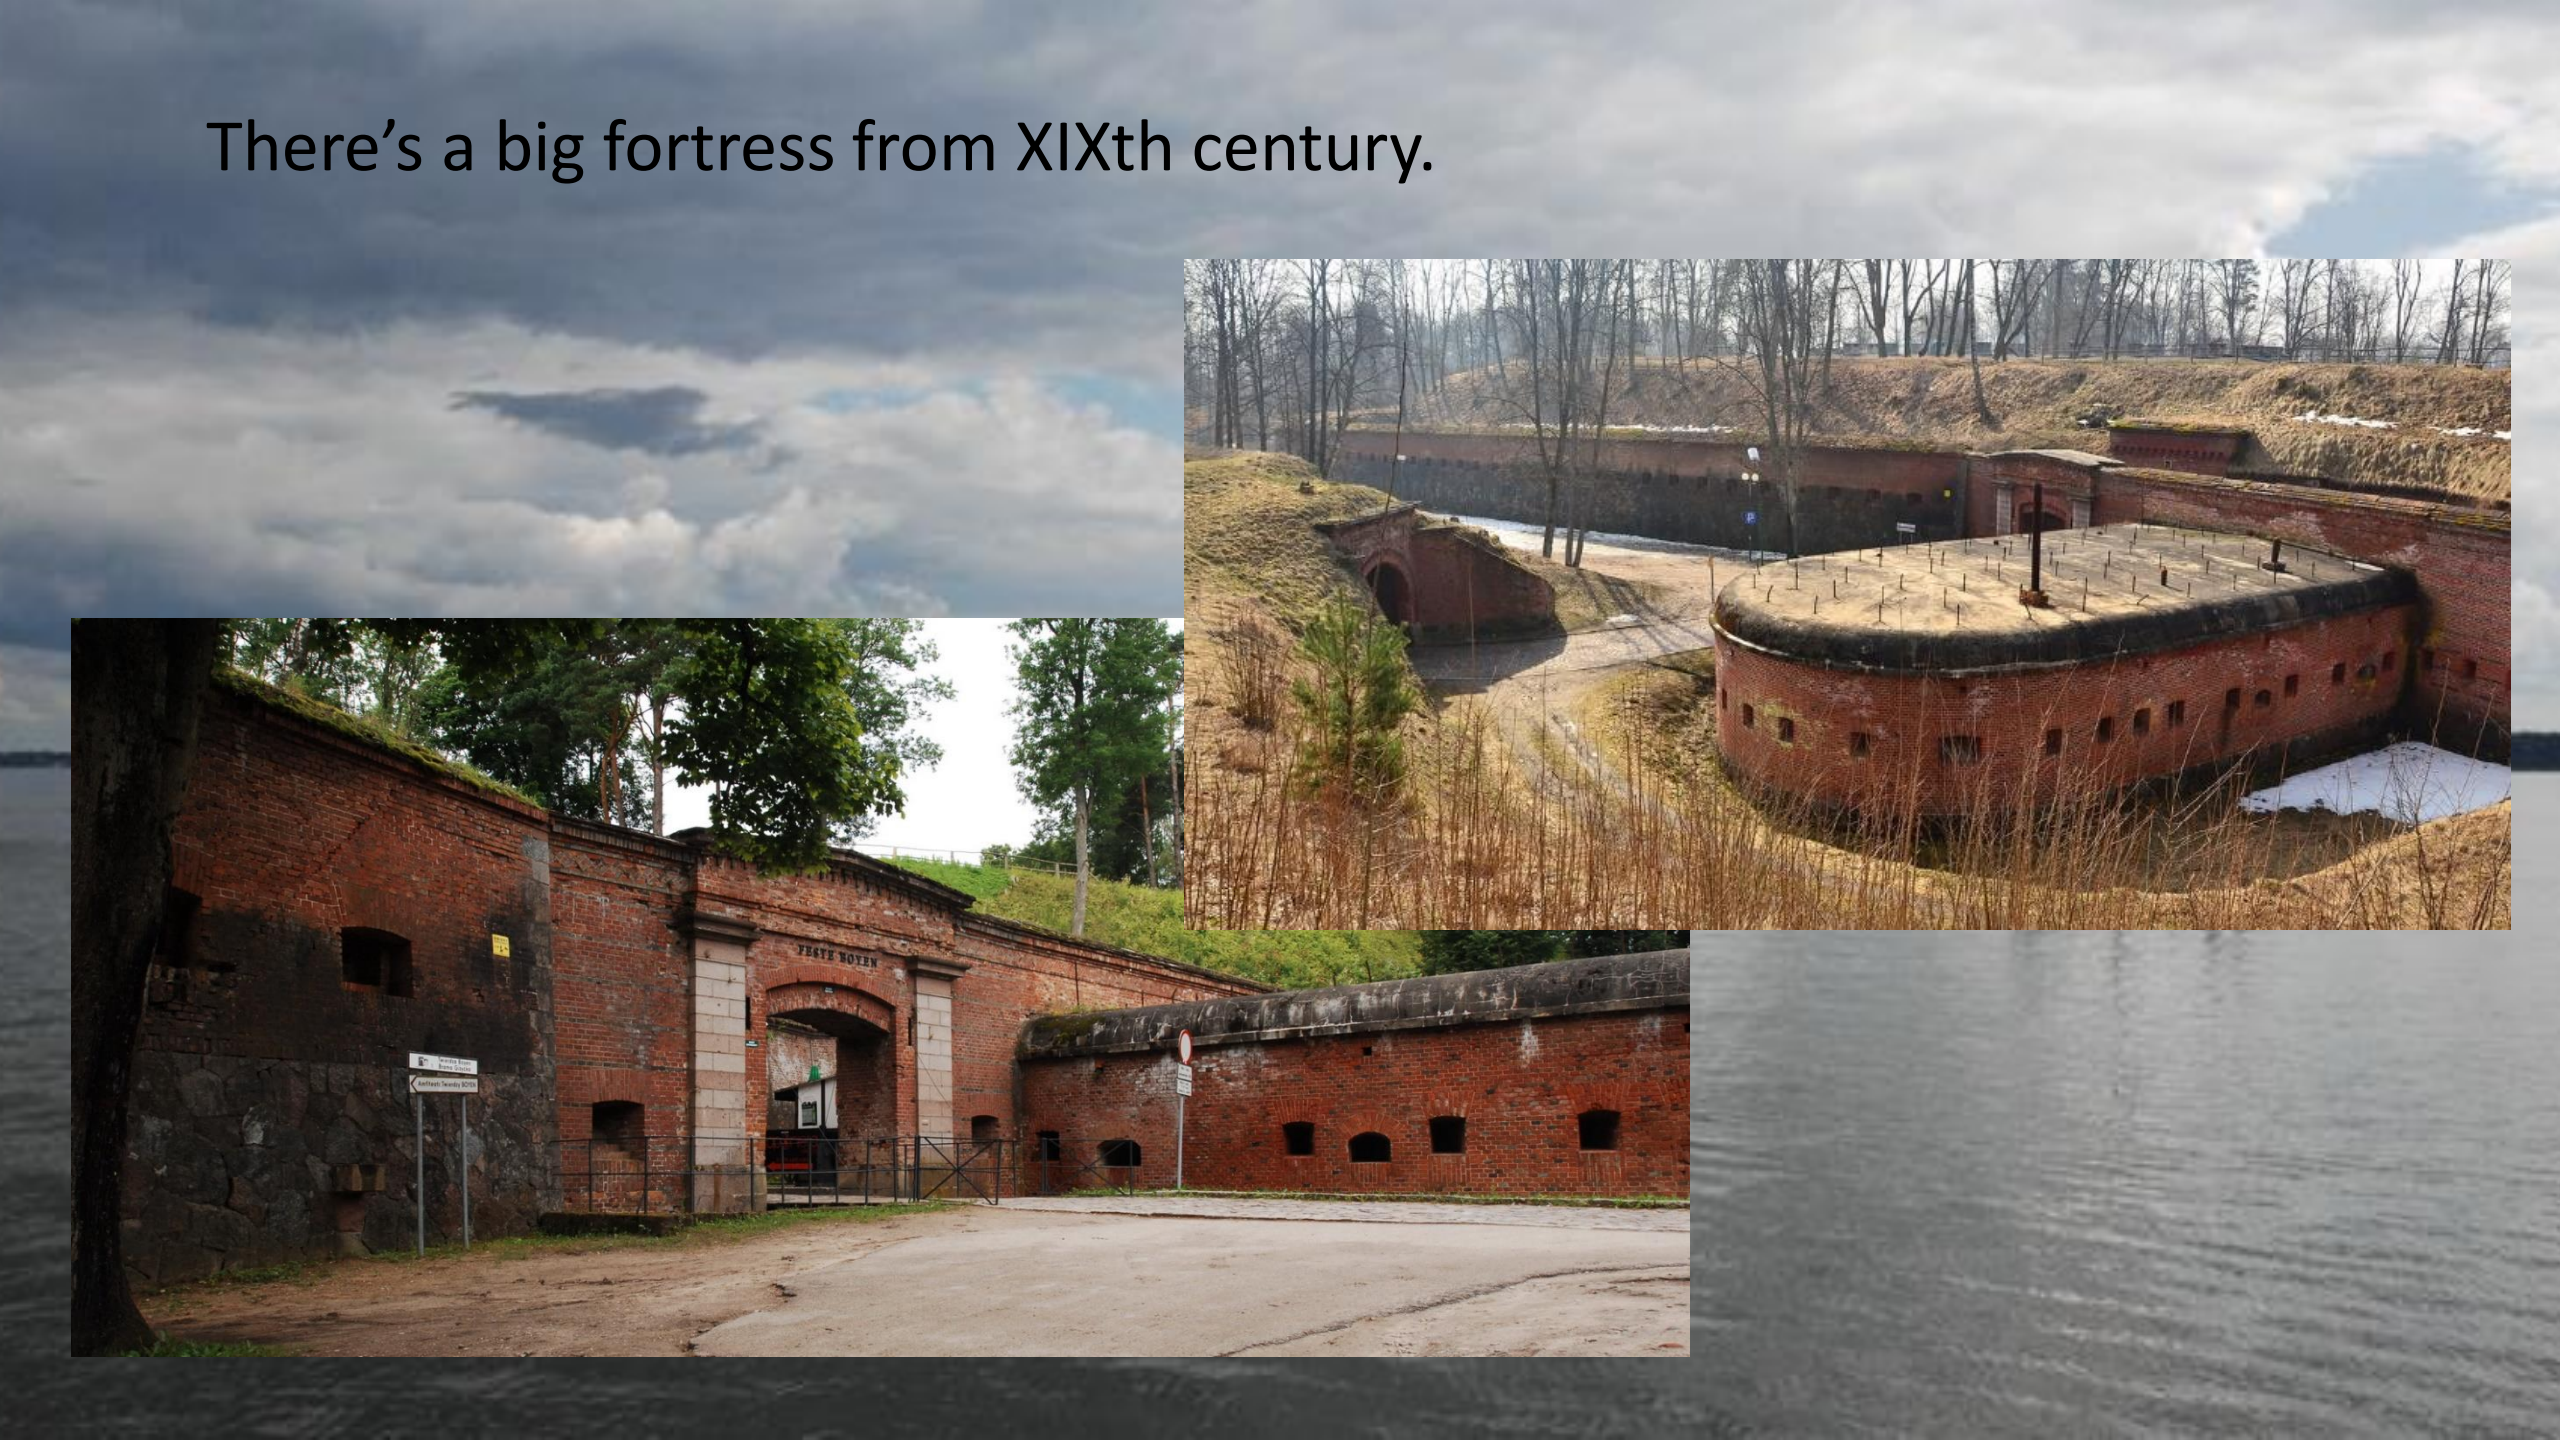

There's a historic water tower. Now there's a cafe and art gallery.

There's a castle from XIVth century. Now there's a hotel. And there is a historic swing bridge. It is served by one man by hand. Even a child can do it. In Europe there are only several bridges such as that one, in your country too.

There's a big fortress from XIXth century.
